

NetSuite for the Contract Furniture Industry

Multi Line Edit Tool

Overview

Multi Line Edit Tool provides dealers the ability to filter and update column values on Transactions in Mass including modification of Pricing fields. The Tool saves users the need to export their SIF File that may require modifications and re-upload, helping to optimize tremendous amount of operation efforts.

Key Features

- Complex Filtering Capabilities
- Include Criteria to Filter Down to specific Transaction Lines
- Mass Update Values on Transaction Lines
- Pricing Calculator
- Allows Update to Sell and Cost Fields through identification of Target GP or Discount Values
- Supports Multiple Transaction Types

Multi Line Edit Tool

It is now possible to update the lengthy transaction when having enormous Item Lines with Multi Line Edit Tool. The detailed criteria feature allows dealers to sort and filter the relevant lines on their transactions and update the required ones only; making it possible to modify complex and heavy transactions. You can now stay within the system for your modifications without the need to export your transactions and work externally, ensuring data integrity, data security and better compliance.

Filtering & Mass Updating

- Complex filtering capabilities allowing users to stack criteria, helping in specific transaction filtering for editing.
- Pop-up Filtering Window for criteria Insert.
- Column Select and Filter.
- Target Gross Profit and Discount Values Filter.

Multi Line Edit Tool in Action

HCL has 120 Line Items on their quotes which require modification for those labeled *AC2341*. HCL employees would normally have to export the File, modify it offline and re-upload into their business system. This process can easily consume 1-2 hours of administrative efforts.

With Multi Line Edit Tool, HCL was able to modify the Line Items on the Quote directly into CFI Suite by inserting the criteria to filter down *AC2341* within seconds and mass update those relevant ones. HCL has just saved at least 1 hour in modifying a single quote, ensuring operations efficiency and effectiveness. With an average of 20 quotes daily, HCL has optimized a combined 20 hours.

HCL has saved **400+ hours** per month with our Multi Line Edit Tool in easing their filtering and mass modification on Transactions.
